

WriteOnce Alpha MVP user testing- March 2026

1. Authentication & Admin Access Tests

1.1 Create a new user account

On account creation user is successfully redirected to editor

Log out

1.2 Login with an existing account

Try and log back in with incorrect then correct password.

Log out

1.3 Attempt to access admin routes without authentication

Try to access the Editor page without being logged in

2. Editor & IR Tests

2.1 Create a new post using Markdown

Create post

Click “Preview”

2.2 Save a draft without publishing

Write a short post and “Save draft”

Close the post and reopen check it is still draft

2.3 Edit and publish a post

Open the draft post edit it and now select ‘Publish’

Check the status of the post has changed

2.4 Archive a post

Change status of a post to “Archive”

2.5 Delete a post

Select a post to “Delete”

Make sure it gives you a warning message before it is deleted

Create some more posts including ones with bullet points and other features and by a range of users to allow fuller testing at later stages

3. Import & Export Tests

3.1 Import Markdown file

Upload a .md file check IR generated and Editor displays what was expected from original file

3.2 Export post to Markdown

Open a post. Click “Export as Markdown”

Check the downloaded file contains equivalent Markdown. Bullet characters preserved where possible

3.3 Import simple HTML

Paste simple HTML (<h1>Title</h1><p>Text</p>)

Check that:

- IR generated
 - Preview matches original HTML
 - How were unsupported elements handled e.g. <color> <table> or <video>? Was there a suitable error message?
-

4. Public Site Tests

4.1 View homepage

Goal: Validate routing and listing.

Posts ordered by published_at

4.2 View a single post

Looking for clean HTML output, No raw IR visible, No broken formatting

4.3 Search or filter posts (if implemented)

Check posts filtered correctly

5. Accessibility Tests (Alpha-level)

5.1 Keyboard navigation

Goal: Ensure basic accessibility.

Navigate editor and admin using only keyboard

5.2 Preview HTML semantic structure

Ensure proper use of <h1>–<h6>, <p>, ,

5.3 Missing alt text warning (if implemented)

Warning if insert image without suitable alt text or alternatively image can be marked as decorative only

6. Security Tests

6.1 Attempt to access another user's draft

Try and open another user's post and edit it. Access should be denied with a suitable message

6.2 SQL injection attempt

Enter ' OR 1=1 -- into search or title field

Expected: No SQL error, No data leakage

7. Error Handling Tests

7.1 Invalid Markdown input

Paste malformed Markdown (e.g., broken list indentation)

Testing for user-friendly error message, No crash, IR not saved

7.2 Database temporarily unavailable (simulated)

Disconnect DB and attempt to save post

Expected: 500 error with sanitised message. No stack trace exposed.

8. Performance & Scalability Tests (Alpha-level)

8.1 Load homepage with 50+ posts

Goal: Validate pagination and indexing.

Expected:

- Page loads quickly
- Pagination works
- No slowdown in IR → HTML

9. Overall UX Tests

9.1 First-time user flow

To evaluate intuitiveness.

Steps: Ask a new tester to create, preview, and publish a post, get their feedback

9.2 Error message clarity

Ask users for feedback on the clarity of any error messages

WriteOnce Alpha MVP — Q&A User Testing Checklist

1. Authentication & Access

1.1 Account creation

- Were you able to create a new account using the login page?
☐ Yes ☐ No
- Did the system clearly tell you when the account was created?
☐ Yes ☐ No

1.2 Logging in

- Could you log in without confusion?
☐ Yes ☐ No
- After logging in, were you taken to the admin area?
☐ Yes ☐ No

1.3 Access control

- If you tried to access the admin area while logged out, were you blocked or redirected?
☐ Yes ☐ No

1.4 Logging out

- Did the logout button work as expected?
☐ Yes ☐ No
- After logging out, could you still access admin pages?
☐ Yes ☐ No

2. Editor & Post Creation

2.1 Writing a post

- Could you find where to create a new post?
☐ Yes ☐ No
- Was it clear where to type your content?
☐ Yes ☐ No

- Could you save a draft without publishing?
☐ Yes ☐ No
- After refreshing the page, was your draft still there?
☐ Yes ☐ No

2.4 Publishing

- Could you publish a post successfully?
☐ Yes ☐ No
- After publishing, did the post appear on the public homepage?
☐ Yes ☐ No

2.5 Editing

- Could you reopen a post and edit it?
☐ Yes ☐ No
- Did the preview correctly reflect your edits?
☐ Yes ☐ No

2.6 Deleting or archiving

- Could you delete or archive a post?
☐ Yes ☐ No
- After deleting/archiving, did it disappear from the public site?
☐ Yes ☐ No

3. Import & Export

3.1 Importing Markdown

- Could you import a Markdown file?
☐ Yes ☐ No
- Did the imported content look correct in the editor?
☐ Yes ☐ No

3.2 Exporting Markdown

- Could you export a post as Markdown?
☐ Yes ☐ No
- Did the exported file look like a reasonable Markdown version of your post?
☐ Yes ☐ No

3.3 HTML import (if available)

- Could you paste simple HTML into the editor?
☐ Yes ☐ No
 - Did the preview show the expected result?
☐ Yes ☐ No
-

4. Public Site

4.1 Homepage

- Could you find and open the homepage?
☐ Yes ☐ No
- Did it show a list of published posts?
☐ Yes ☐ No
- Was the list easy to read and navigate?
☐ Yes ☐ No

4.2 Viewing posts

- When you clicked a post, did it open correctly?
☐ Yes ☐ No
 - Did the formatting look clean and readable?
☐ Yes ☐ No
-

5. Accessibility & Usability

5.1 Keyboard navigation

- Could you navigate the editor and admin area using only the keyboard?
☐ Yes ☐ No
- Was the focus indicator visible?
☐ Yes ☐ No

5.2 Readability

- Was the preview easy to read?
☐ Yes ☐ No
- Did headings, lists, and paragraphs look correct?
☐ Yes ☐ No

5.3 Error clarity

- When something went wrong (e.g., invalid Markdown), did the system explain the issue clearly?
☐ Yes ☐ No
-

6. Security & Safety (User-visible)

6.1 Unsafe content

- If you pasted something suspicious (e.g., `<script>`), did the system prevent it from running?
☐ Yes ☐ No

6.2 Privacy

- Did you ever see content from another user's drafts or admin area?
☐ Yes ☐ No
-

7. Error Handling

7.1 Invalid input

- When you entered malformed Markdown, did the system show a helpful error?
☐ Yes ☐ No

7.2 System errors

- Did you ever see a confusing technical error message?
☐ Yes ☐ No
 - If yes, was it clear what you should do next?
☐ Yes ☐ No
-
-

9. Overall Experience

9.1 Ease of use

- Was it clear how to create, edit, and publish a post?
☐ Yes ☐ No

9.2 Confidence

- Did you feel confident using the system after a few minutes?
☐ Yes ☐ No

9.3 Satisfaction

- Would you feel comfortable writing a real blog post in this system?
☐ Yes ☐ No
-
